Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. This action is in response to applicant's amendment received on 12/22/04. The finality of the last action mailed on 06/13/05 was withdrawn.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Philips Electronic N.V. (WO 95/29042) in view of Tietjens (4707923).

Regarding claim 1, Philips'042 discloses (Fig. 1-17) the invention including an outer cutter 4 having an interior surface (the bottom part, see Fig. 3 and 8), radially extending hair capturing slits 15 and 15a (where the slit's width is extending radially) and an outer circumferential side surface, an inner cutter 5 having a rotating side surface; and a gap (see Fig. 3 and 8). Regarding claims 2 and 3, Philips'042 discloses a center of said outer cutter and a rotational center of said inner cutter are offset (see Fig. 2, 3 and 8). Philips'042 does not show a plurality of upwardly extending inner blades. However, Tietjens teaches the use of a plurality of upwardly extending inner blades 6 for the purpose of reducing the manufacturing cost and friction losses between the inner and outer cutters. It would have been obvious to one having ordinary skill in the art at the time the invention was made to have modified the cutter of

Philips'042 by providing the plurality of upwardly extending inner blades as taught by Tietjens in order to obtain a cutter that reduce the manufacturing cost and friction losses between the inner and outer cutters.

Response to Arguments

4. Applicant's arguments with respect to claims 1-3 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
